

First off- I pay for this service, not the government, broadcasters, or politicians, just I the listener. I subscribed to XM radio to be able to listen to uncensored radio. It is my choice to listen and i do not feel comfortable with my current politicians/officials when they tell me what i can or cannot listen to- that is something my parents should do, but they don't because they observe my freedom of choice, unlike the FCC. Please, please do not restrict my rights, as i may have to move to Canada to finally get a seperation of self-righteous religious zealots and the government.
